

# PEL2000A

## MILL SIZE BALER

The **PEL2000A** Baler is ideal for any premises producing large quantities of recyclable wastes. Waste volume and disposal costs are reduced by up to 90%.

### HIGHLIGHTS

The PEL2000A creates more space by removing the need for extra waste bins or skips to store recyclable materials.

The PEL2000A baler is user-friendly, featuring a wide aperture and a lever-action door handle that eliminates the need to manually break down large cardboard or plastic.

Produces bale weighing 150-200kg

Automatic bale cycle with a 40 second cycle time.
